We strive to keep everything fair for everyone, once a puppy has become available and you're offered one, please get back to us on your decision whether to accept or decline in a timely manner. Waiting more than 24 hours for an answer is unacceptable when you have been on a waiting list committed to take on this responsibility. If you cannot make your mind up in a timely manner, or we leave messages without them being returned it could mean you lose your place in line or you are getting kicked off our waiting list entitled to no refund.

Please take a moment to make sure you filled out the whole application. Any pages missing, or information missing will be an automatic deny of the application and result in your application being returned with your deposit.

Thank you for spending your time filling out our application, this is just another way we can assure that our puppies are going to forever loving homes with responsible owners. We strive to become a part of the solution and not a part of the problem of dog overpopulation, and if you're not going to be a responsible breeder, how on earth do you expect to find responsible owners.

Thanks,

Owner/Breeder: Chrissy of Mayder Falk Dachshunds

~Mayder Falk Dachshunds code of ethics~
~reputable breeders will never sell or trade their puppies for pennies on the dollar", reputable breeders will go out of their way to find the right forever homes for the puppies they are bringing into this world, even if it means less money in their pocket and short changing themselves, cause at the end of the day, the animal's welfare is what matters, and money is only a number! If you can't attach human emotion and love for the animals your raising, get the hell out of the business! ~ I would never give my puppies to anyone who didn't feel the same!
